Action of Attraction

The law of attraction can allow you to BE anyone you want to be, HAVE anything you want to have, and DO anything you want to do.

This powerful natural Law states that what you have focused your energy and attention on, along with your thoughts and your feelings, and the actions you have taken up to this point in your life, has shaped and molded the exact type of life you are living TODAY. The Law of Attraction 'matches' the energy and emotions you 'send out' and it returns the same to you. Join us on February 18th to watch "Thoughts Become Things", the new movie by Mike Dooley from the secret. Learn how to create vision boards and create your own reality. Worksheets and vision boards provided.

ATTITUDE

"The longer I live, the more I realize the impact of attitude on life. Attitude, to me, is more important than facts. It is more important than the past, the education, the money, than circumstances, than failure, than successes, than what other people think or say or do. It is more important than appearance, giftedness or skill. It will make or break a company... a church... a home. The remarkable thing is we have a choice everyday regarding the attitude we will embrace for that day. We cannot change our past... we cannot change the fact that people will act in a certain way. We cannot change the inevitable. The only thing we can do is play on the one string we have, and that is our attitude. I am convinced that life is 10% what happens to me and 90% of how I react to it. And so it is with you... we are in charge of our Attitudes."

Book Reviews

The God of Anna by Kasey Greenhoe....After Anna, who is 11, lost her wonderful father, she learns to look inward for the answers to life's difficulties. She is guided and prodded by her mystical great Aunt Clair. This is something as adults we forget to do. We look outward for inward answers. I especially enjoyed the setting of the story which is set along a grand Florida river

This is a powerful symbol. The spirit keeper of the earth. Turtle teaches us to be careful in new situations and to be patient in reaching our goals. On an emotional level, it teaches us to reach within to find the answers
